COMPUTER TRAINING LABS AVAILABLE!

CENTER OF HIGHER LEARNING
JOHN C. STENNIS SPACE CENTER
RESEARCH | ACADEMICS | TRAINING | OUTREACH

The Center of Higher Learning (CHL) has two computer labs available to the Stennis Space Center and larger community for lease as computer software training locations. Instructors can teach on location or utilize distance learning software to teach on-site students remotely.

- Lab #1 is equipped with 14 student computers, 1 instructor computer, 2 ceiling-mounted projectors, whiteboards, and wired or wireless internet access.
- Lab #2 is equipped with 10 student computers, 1 instructor computer, 1 projector, whiteboards, and wired or wireless internet access.

Every computer boasts dual monitor setups and microphone enabled headsets. Each includes Microsoft Office Professional Plus (including Excel, PowerPoint, Word, & Access), ArcGIS software, and Mozilla Firefox. Special software requests are welcome. Companies can load their own software for internal training purposes or software can be sent in advance and preloaded by the CHL staff.
